Yigit Dincsoy

software developer & international lawyer

av.yigitdincsoy@gmail.com ◇ Halifax, NS, Canada ◇ github.com/yigitDincsoy ◇ linkedin/in/yigitdincsoy ◇ yigitdincsoy.com

- As a software developer, I have 3+ years of application development experience, specializing in various Javascript stacks, cross-platform apps and dev-ops.
- As an operations manager, I oversaw various daily operations in startups, acting as the CEO's right hand conducting interviews, and managing multiple teams of over 20 employees.
- As a legal professional, I have experience with Web3 and international compliance, reviewing and drafting contracts and representing clients: I am a registered attorney in the Turkish jurisdiction.
- As an entrepreneur, I have built and released multiple video games with 10,000+ sales in total.
- I bring order to chaos.

WORK EXPERIENCE

Software Developer / Chief of Staff   Jun. 2023 – Oct. 2024
Koii Network, Halifax, Canada
- Koii Network is a Layer-1 Web3 project that aiming to build a decentralized global computing network.
- I worked in a hybrid role, assisting the CEO and CCO with the day-to-day operations and developing applications.
- I organized multiple teams, hiring 10+ people, managing contracts and financial transactions.
- I built and deployed multiple projects, including a token sales / compliance platform, a referral program issuing rewards according to the participation on the chain, decentralized data processing applications and games.

Software Developer, Co-op   Apr. 2023 – May. 2023
SafeHarbour Research & Technologies, Halifax, Canada
- SafeHarbour is a Canadian company that develops smart buoys in cooperation with Dalhousie University.
- I directly worked with the founders and assisted them with core strategies, project management, and full-stack application development.

Associate Attorney   Dec. 2020 – Jul. 2022
Izmir Bar Association, Izmir, Turkey
- Performed a one-year legal traineeship at the Turkish Ministry of Justice and local law firms.

Software Developer   Jul. 2018 – Dec.2020
Studio Attic Salt, Izmir, Turkey
- Worked on developing multiple interactive novel projects and learned project management & organizational skills in a tech start-up environment that served more than 50,000 users.
